Liimra Naturals D2C Millet Products

From Awareness to Advocacy - Every Touchpoint Mapped

Journey Overview: 7 Critical Stages

Emotional Curve Throughout Customer Lifecycle

1	**AWARENESS** 😐 Curious	**1-7 days**	Conversion: **2.4%**	→	*Social media ads, influencer content, search*
2	**CONSIDERATION** 🤔 Skeptical	**3-14 days**	Conversion: **18%**	→	*Product comparison, reviews, health benefits*
3	**DECISION** 😬 Anxious	**1-3 days**	Conversion: **35%**	→	*Price sensitivity, trust barriers, alternatives*
4	**ONBOARDING** 😊 Excited	**First 7 days**	Retention: **45%**	→	*First purchase critical - recipe support needed*
5	**ENGAGEMENT** 😀 Satisfied	**8-90 days**	Retention: **38%**	→	*Recipe usage drives repeat, WhatsApp engagement*
6	**LOYALTY** 😍 Delighted	**90+ days**	Retention: **28%**	→	*Subscription, referrals, brand advocacy*
7	**CHURN** 😞 Disappointed	**Variable**	Churn: **18%/mo**		*Price, availability, lack of variety*

Stage 1: AWARENESS

How They First Discover Us | Emotional State: Curious 🤔

Customer: Priya, 32, working mom in Mumbai | Thinking: "I need healthier breakfast options for my kids" | Feeling: Overwhelmed by choices, skeptical of health claims

Discovery Touchpoints (Digital & Physical)

Instagram Ad: "Healthy breakfast for kids" targeting	High
Mom Influencer Post: Food blogger shares millet recipe	Very High
Google Search: "Gluten-free breakfast India"	Medium
Amazon Browse: Searching "millet products"	Medium
Friend Referral: WhatsApp group recommendation	Very High

Key Metrics to Track

- Impressions → Reach (targeting accuracy)
- Click-through rate (CTR) - Target: >2.5%
- Cost per click (CPC) - Target: <₹15
- Brand search volume growth
- Share of voice vs competitors

Pain Points & Friction

- Ad fatigue - too many health brands claiming miracles
- Unfamiliar with millets - "What even is jowar?"
- Generic positioning - doesn't stand out from competitors

Opportunities to Delight

- Educational content - short videos explaining millet benefits
- Mom testimonials - real stories, before/after kid health
- Recipe teasers - "5-minute pancakes your kids will love“
- Free sample program - try before you buy

Recommended Tools/Tactics

- Influencer partnerships (3-5 micro-influencers)
- SEO blog content ("millet benefits for kids")
- YouTube recipe videos with CTAs
- WhatsApp Business API for referral tracking

Stage 2: CONSIDERATION

What They Compare & Need | Emotional State: Skeptical 🤔

Thinking: "Is this actually healthier? Will my kids eat it? Worth the price?" | Feeling: Cautiously optimistic but needs proof | Comparing: Slurrp Farm, True Elements, regular atta

Evaluation Criteria	Liimra Naturals	Slurrp Farm	True Elements	Regular Atta
Price (₹/kg)	₹499	₹700-1,200	₹350-500	₹40-60
Ingredients clarity	?	Clear, tested	Clear	Familiar
Recipe support	?	Extensive	Moderate	Traditional
Brand trust	Unknown	High	Medium	Very High
Availability	Online only	4000+ stores	E-com + stores	Everywhere

Information Needed

✓ Nutritional comparison (millet vs wheat/rice)

✓ Third-party certifications (FSSAI, organic)

✓ Customer reviews (verified purchases)

✓ Recipe ideas with prep time

✓ Money-back guarantee details

✓ Shelf life and storage instructions

✓ Shipping timeline and costs

✓ "Why we're different" vs competitors

Critical Friction Points

❌ Lack of trust - no established brand reputation
❌ Price objection - 8-12x regular atta
❌ Uncertainty - "Will my kids actually eat this?"
❌ Information overload - too many SKUs confusing

Delight Opportunities

✓ Comparison chart (Liimra vs competitors)
✓ Trust badges (certifications, awards)
✓ Video testimonials (real moms)
✓ "Try small pack" option (250g at ₹125)

Stage 3: DECISION

Conversion Triggers & Barriers | Emotional State: Anxious 😬

Thinking: "Should I try 500g or 1kg? What if they don't like it?" | Feeling: Ready to buy but anxious about waste | Decision trigger: 15% first-time discount code

What Makes Them Convert ✓

1. Limited-time discount (15-20% off)
2. Free shipping over ₹500
3. Money-back guarantee (30 days)
4. Recipe e-book included free
5. "100 orders left at this price"
6. Trust signal: "5,000+ happy customers"
7. Easy checkout (guest checkout option)
8. Multiple payment options (UPI, COD)

What Almost Stops Them ❌

1. Price shock (cart total higher than expected)
2. Shipping costs appear at checkout
3. Mandatory account creation
4. Long checkout form (too many fields)
5. No COD option visible
6. Unclear return policy
7. "Out of stock" on preferred size
8. Website errors or slow loading

Optimization Tactics to Boost 35% → 50% Conversion

1. Cart abandonment recovery: Email/WhatsApp with 10% code within 24 hrs → **+15% recovery**
2. Exit-intent popup: "Wait! Here's ₹75 off your first order" → **+8% conversion**
3. Social proof widgets: "Anjali from Mumbai bought this 5 min ago" → **+12% trust**
4. Size recommendation: "Most moms start with 1kg pack (₹499)" → **↑AOV 20%**
5. Bundle deals: "Buy 2kg, get 250g sample free" → **↑AOV 35%**

Stage 4: ONBOARDING (First 7 Days)

Critical Window - Builds or Kills Retention | Emotional State: Excited 🤩

Day-by-Day Journey (Target: 45% → 55% M1 Retention)

DAY 0: Purchase → Order confirm email/WhatsApp + recipe e-book download
DAY 2: In transit → "Your pancakes arrive tomorrow!" SMS
DAY 3: Delivery → Handwritten thank-you note, QR to video recipes
DAY 4: First usage → WhatsApp support bot helps with recipe questions
DAY 5: Feedback → "How was your meal?" email (₹50 credit for photo)
DAY 7: Engagement → Recipe series email 1/7 starts

Critical Success Factors:

1. Product experience - taste, ease of prep
2. Support availability - WhatsApp bot, recipe helpline
3. Engagement - daily recipe emails keep brand top of mind
4. Quick win - "Start here" 5-min pancake recipe card

Tools & Tactics:

→ Recipe video library (YouTube/Instagram)

→ WhatsApp Business API automated support

→ Klaviyo email automation (7-day onboarding series)

→ Success guarantee: "If kids don't eat it, refund within 30 days"

Stages 5 & 6: ENGAGEMENT → LOYALTY

From Repeat Purchase to Advocacy | Days 8-90+

ENGAGEMENT (Days 8-90)

Retention drivers + Activation moments

What keeps them: Habitual use, recipe variety, visible results

Moments: Product running low, festival season, new SKU

Tactics (38% → 55% retention):

- Subscription: 10% off, 60-70% retention
- Weekly recipes: +8% engagement
- Reorder reminders: +15% repeat rate

LOYALTY (Day 90+)

Advocacy drivers + Referral triggers

What creates advocates: Subscription active, health results, emotional connection

Triggers: Friend asks advice, WhatsApp mom groups, referral rewards

Referral program:

- ₹100 credit for both parties
- Featured customer stories
- Target: 20-25% new customers from referrals

Stage 7: CHURN (Why They Leave)

Early Warning Signals & Win-Back | Current: 18%/mo → Target: 12%/mo

Top 5 Churn Reasons + Win-Back Tactics

1. Price (35%): Signal: Cart abandonment → Win-back: Loyalty discount

2. Availability (25%): Signal: Out of stock → Win-back: Notify + substitute

3. Lack of variety (20%): Signal: Stopped after 3 orders → Win-back: New SKUs

4. Better alternative (15%): Signal: Competitor pricing → Win-back: Match + value

5. Poor experience (5%): Signal: Delayed delivery → Win-back: Refund + guarantee

90-Day Win-Back Campaign (25% Reactivation Target)

Day 45: "We miss you! 20% off" (Email)

Day 60: "Everything okay?" + survey for ₹50 credit (WhatsApp)

Day 75: "Last chance: ₹100 off expires in 48hr" (SMS)

Day 90: "Final: 30% off + free shipping" (Email + SMS)

Day 120: Move to inactive, stop marketing

⚠️ **CRITICAL:** Prevention better than cure. Focus on Day 30-60 engagement.

Tools: Klaviyo automation, WhatsApp Business API, Retention.com predictive churn alerts

Journey Map Summary & Actions

TOP 5 PRIORITY ACTIONS

1. FIX ONBOARDING (Days 0-7) → 45% to 55% M1 retention

Recipe videos, WhatsApp bot, 7-day email series

2. LAUNCH SUBSCRIPTION → 30% adoption by Month 6

10% discount, auto-delivery, 60-70% retention

3. REDUCE DECISION ANXIETY → Boost 35% conversion

30-day guarantee, trial packs, video testimonials

4. BUILD ENGAGEMENT → 38% to 45% retention

Weekly recipes, WhatsApp community, UGC rewards

5. CHURN PREVENTION → 18% to 12% monthly churn

Reorder reminders, win-back campaigns, proactive support

Execute these → Transform 26:1 LTV:CAC into sustainable growth
